

Dohrmann *Applicators*

NEW: **DE-1008.5** **Dohrect Enject Applicator**

Introduced in 2001, the **Dohrect Enject System** is the original "Low Volume, Long Distance Applicator" designed in applying water soluble inoculants in a concentrated form. The **Dohrect Enject** is the only inoculant system with an insulated tank. These units were designed for use on Self-Propelled Forage Harvesters.

Features of **Dohrect Enject Systems**:

- Low Application Rate
- 10 Gallon Insulated Cooler(s)
- Easy to Clean
- No nozzle or orifice to plug
- Compact in size

DE-1008.5 Dimensions

Footprint for Mounting
15" L X 15" W

Overall Dimensions
23¼" L X 16½" W X 23¼" H

- Harvest Rates up to 8.5 Tons/Minute
- Stainless Steel Baseplate & Enclosure
- Hinged door pump access with ¼ turn latches
- Applicator ships assembled
- Available September 2014
- Limited Quantities Available for fall of 2014

Introducing our newest low-volume applicator: **DE-1008.5**

It stands out with its stainless steel baseplate and enclosure, featuring a hinged door to gain access to an updated pump and a quick-connect pumping tube—meaning, no tools required for pump tube changes! The flush bottle is larger and is part of the pump enclosure. We have also improved the wire harness and electrical plug connection to the pump unit, to make it a more secure, weather-tight connection. As with all **Dohrect Enject Systems**, it has an open-ended discharge (no nozzle or orifice to plug), an insulated tank (treating up to 1000 tons per tank fill), and a secondary tank option (to have more on the go).

U.S. Patent No. 6,443,369
Canada Patent No. 2,411,690
Additional U.S. and International Patents Pending

Features

DE-1008.5 Includes

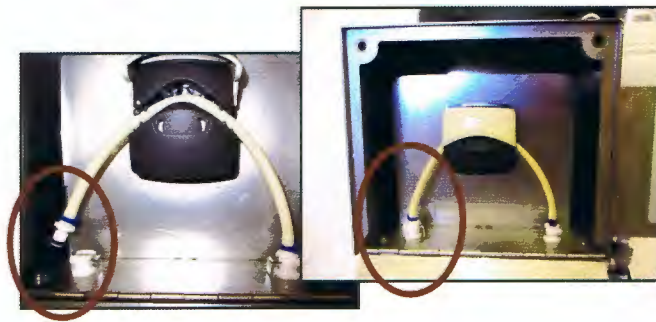

- Stainless Steel Baseplate & Pump Enclosure
- Updated 108.5 Pump & two Pumping Tubes
- 10 Gallon Insulated Cooler
- Flowmeter (not pictured)
- SP-2 Variable Rate Controller
- Power Cord
- Hose
- Flush Bottle
- Mixing Bottle

Out-of-the-box

DE-1008.5 is assembled and ready for immediate installation on your Self-Propelled Forage Harvester.

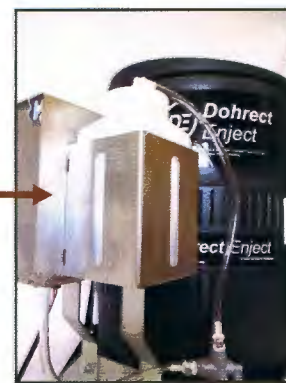

Available Options

- **X2-1008.5-KIT**
(adds a second tank, baseplate & manifold to applicator)
- **CM-2 Mounting Kit**
(for Pull-Type Forage Harvesters ONLY)

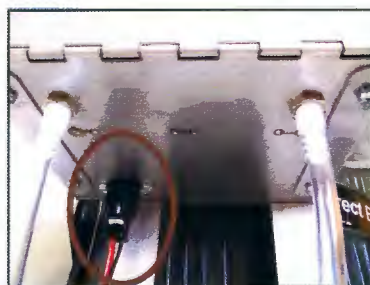

- Quick Connect Pump Tubes
- Two different sized tubes included with each applicator

- Larger 32 oz. Flush Bottle
- Flush Bottle holder is part of pump enclosure & includes viewing windows

- Quick Connect Hoses on Flush Bottle & Cooler Valve Assembly

- Weather-tight latching plug
